PROFESSIONAL SUMMARY

I am a Frontend Developer and AI Creative Technologist focused on building modern, responsive, interactive web experiences and AI-powered creative projects. I work with React, Next.js, JavaScript, TypeScript, Tailwind CSS, HTML, CSS, Node.js and MongoDB, with hands-on experience creating authentication flows, API-powered features, polished UI systems, video experiences, and cinematic AI content. I combine technical development with visual design, storytelling, and creative problem-solving to turn ideas into engaging digital products.

TECHNICAL SKILLS

Frontend: React • Next.js • JavaScript • TypeScript • HTML5 • CSS3 • Tailwind CSS

Web & Backend: Node.js • MongoDB • REST/API Integration • Authentication • Git/GitHub • Vercel

Design & UX: Responsive Web Design • UI/UX Implementation • Interactive UI • Animations • Glassmorphism • Accessibility-minded layouts

AI & Creative: AI Video Generation • AI Image Generation • AI Cinematography • Prompt Engineering • AI Storytelling • Creative Direction

PROFESSIONAL EXPERIENCE

Independent Frontend Developer & AI Creative Technologist | Nigeria | Ongoing

- I design and develop responsive web experiences using React, Next.js, JavaScript, TypeScript, Tailwind CSS, and modern CSS.
- I build interactive interfaces with animation, video, glassmorphism, responsive layouts, and attention to visual detail.
- I develop AI-focused creative projects involving cinematic storytelling, AI-generated imagery and video, character consistency, camera direction, lighting, and scene continuity.
- I build practical web application features including registration/login flows, API routes, authentication, MongoDB data handling, and deployment workflows.

Web Development Training - Loctech | July 2024 - December 2025

- I completed structured full-stack web development training covering Node.js and MongoDB alongside core web technologies.
- I built practical web-development projects while strengthening my frontend, backend, database, and problem-solving skills.
- I developed a foundation for creating and deploying modern web applications.

SELECTED PROJECTS

AI Cinematography Course Platform - Next.js-based student platform for an AI cinematography course, combining responsive UI, interactive sections, video experiences, registration/login flows, API routes, authentication, and MongoDB.

When Our Worlds Collide - AI-assisted cinematic storytelling project developed around character continuity, scene direction, cinematic composition, dialogue, lighting, and short-form video production.

The Promise at Sunset - AI cinematic fantasy story project focused on photorealistic visual storytelling, consistent characters, environments, emotional narrative, and multi-episode scene continuity.

Frontend Portfolio & Web Projects - Personal portfolio and client-style interface projects demonstrating responsive frontend development, modern layouts, reusable components, and polished user experiences.

EDUCATION

Rivers State University | Estate Management - Undergraduate | November 2025 - Present

CERTIFICATION & TRAINING

Loctech | Full Stack Web Using Node JS and MongoDB | July 2024 - December 2025
